machine!**

MANN-FILTER – Perfect parts. Perfect service.

MANN-FILTER – always the right choice.

Original
equipment
quality you
can trust!

Whether mobile on construction sites or stationary in industrial plants, compressors must always deliver full power. Long running times, large volumes of dust and high mechanical loads place enormous demands on filtration systems. MANN-FILTER products in 100% original equipment quality offer the best protection for your compressor, providing long-term protection for your plant and therefore your investment.

Air filters

Reliable performance even in dusty working environments: MANN-FILTER air filters impress with their excellent filtration performance. They separate harmful dirt particles and water droplets from the intake air, thus reducing engine wear and extending its service life. Where technically possible, we use environmentally friendly, metal-free elements in our filters.

Oil filters

The exceptionally high particle separation and dirt holding capacity of MANN-FILTER oil filters ensure the best possible protection and enable long service intervals – even under the toughest operating conditions.

Fuel filters

MANN-FILTER fuel filters protect modern diesel injection systems against dirt particles and water droplets in the fuel. They reliably ensure that the engine is supplied with clean fuel – and thus contribute to extending its service life.

Air/oil separators

Whether in element or box form, MANN-FILTER air/oil separators ensure high separation rates and low quantities of residual oil. This minimizes oil loss. The low differential pressure delivers energy savings. This reduces operating costs and conserves resources.

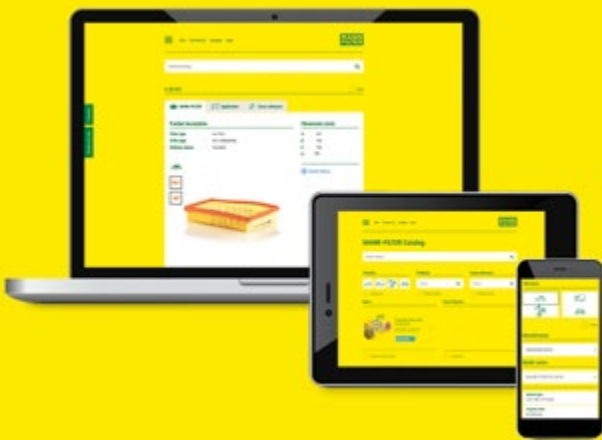

Multichannel access to our products.

The MANN FILTER website

Enter the yellow and green world of MANN-FILTER for perfect service. Here you'll find the MANN-FILTER dealer locator with Google route planner. You'll also find useful product information and everything you need to know about MANN-FILTER Motorsport. Stay up-to-date with the MANN-FILTER newsletter and latest press releases.

The MANN-FILTER online catalog

Keep track of the different filter elements that are used all over the world. With the MANN-FILTER online catalog, you will quickly and easily find the right product. A 360-degree view is available for almost all of our filters. And best of all: With our handy pocket-sized version of our online catalog for your smartphone, you can find the latest information wherever and whenever you need it.

convenience!

The MANN-FILTER catalog

A variety of new filter types for the latest passenger cars, trucks, and off-highway models complement the widest range of filters in original equipment quality. The catalogs offer an extensive range of vehicle and machine filter elements for the European spare parts market. The catalog set is divided into four up-to-date yellow and green individual catalogs for different application areas and the "Comparison list" available in PDF format contains extensive conversion lists. For the first time, all catalogs are also available as interactive electronic PDF files for browsing with many quick access functions.

Ready for any project.

Rely on yellow and green when selecting filters.

Dust, long running times, high mechanical loads – these are the challenges that filtration solutions for compressors on construction sites and in industrial enterprises have to handle. MANN-FILTER products are made precisely for these requirements and offer the best protection for your compressors. The name MANN-FILTER stands for 100% original equipment quality – and MANN+HUMMEL is a development partner to all major compressor manufacturers.

Quality that you can depend on

Reliable filtration chain: Air filters, oil filters, and air/oil separators are team players that interact with one another in a compressor. With high-performance MANN-FILTER filter elements, you can rely on a filtration chain in 100% original equipment quality.

Service that impresses

Always in good hands – from ordering to support: High availability and fast delivery of our products come as standard – together with our comprehensive After Sales services. And with our state-of-the-art information tools including our website, online catalog, and print catalogs, you can find what you're looking for in no time at all.

A range that offers everything

Comprehensive and high-quality: MANN-FILTER offers you a complete range of air, oil, and fuel filters, as well as air/oil separators of the highest quality and durability for use in compressors from the most-important major manufacturers.

An investment that pays

Benefit in three ways: With high-quality products from MANN-FILTER, you comply with the service intervals prescribed by machine manufacturers, reduce machine downtimes, and ensure long term protection of your investment. Because long running times and optimum protection are not only good for your machine, but also for your budget.

Top 5 reasons to choose MANN-FILTER

- ⊕ Safety and reliability, even under the heaviest loads
- ⊕ Original equipment quality
- ⊕ Best market coverage in Europe
- ⊕ Comprehensive service
- ⊕ The highest original equipment expertise worldwide for over 70 years
